

SHOWA 7166R

The SHOWA 7166 general-purpose gloves feature an impermeable full nitrile coating that protects hands from a range of hazards, including abrasion, oils, and chemicals. A reinforced safety cuff prevents liquid and debris from entering the glove, and a soft cotton liner controls the temperature and wicks away sweat. The rough surface grip is ideal for wet or greasy environments and increased protection.

BENEFITS

- Robust grip
- Abrasion-resistant
- Oil-resistant
- Flexible
- Impermeable

FEATURES

- Rough grip
- Fully-coated nitrile
- Cotton liner
- Reinforced safety cuff
- Smooth grip

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
