

SHOWA 465

Featuring a removable cotton/acrylic liner and a full PVC coating, the SHOWA 465 thermal insulation glove protects against chemicals even in cold environments. Protecting up to -20°C, this cold protection glove remains flexible in extreme temperatures. Its rough surface provides increased tactility and grip. The outer layer is impermeable for working in greasy or damp environments, and the inner layer is moisture-wicking and machine washable for added hygiene.

BENEFITS

- Flexible
- Soft liner
- Durable
- Chemical-resistant
- Cold Resistant
- Impermeable
- Forearm protection
- Seamless knit

FEATURES

- Rough grip
- Ergonomic
- Removable liner
- Full PVC Coating

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
