

SHOWA 7000R

When handling rough, abrasive materials, the SHOWA 7000R is the ideal general-purpose glove. A full nitrile coating protects hands from punctures and cuts, and a rough surface grip provides optimum tactility when handling wet or greasy components. An elasticated wrist cuff absorbs perspiration and prevents liquid and debris from entering the glove.

BENEFITS

- Cut-resistant
- Abrasion-resistant
- Oil-resistant
- Water-resistant
- Robust grip
- Reusable

FEATURES

- Fully-coated nitrile
- Elasticated wrist cuff
- Cotton liner
- Rough grip

MATERIAL

- Cotton
- Cut and sewn

GRIP

- Rough

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
