

SHOWA 381

The 381 ultra-lightweight gloves are designed with flexibility and comfort in mind, even during periods of extended wear. It's unique microfiber design, weighing only 19g and with a finger thickness of just 0.84mm, ensures 381 provides optimum tactility when working on delicate projects. Using ultra-thin, breathable materials reduces palm sweat in warm environments, which increases comfort and grip within the glove.
