

SHOWA 875

The SHOWA 875 acid-resistant glove offers superior protection against highly corrosive acids, ketones, and esters. Butyl rubber provides the highest permeation resistance to gases and water vapors of any material used to make gloves. A smooth surface grip provides unmatched tactility and performance.

BENEFITS

- Acid-resistant
- Impermeable
- Water-resistant

FEATURES

- Unlined
- Rolled Cuff
- Smooth grip
- Unsupported
- Butyl rubber

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
