

SHOWA 879

The 879 acid-resistant glove provides the highest permeation resistance to gases and water vapors, as well as protection against ketones, alcohols, and nerve agents. Engineered with unlined butyl rubber, the 879 features a superior resistance to highly corrosive acids.

BENEFITS

- Acid-resistant
- Forearm protection
- Impermeable
- Water-resistant

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
