

SHOWA XW300

The SHOWA XW300 is a new insulated cut-resistant glove developed to meet the market demand for insulated gloves with cut-resistance. The XW300 offers high protection against cut risk (level E) and it is a great solution for workers using gloves outdoors in winter, needing protection from the cold and cut at the same time. The glove's inner liner is made using improved knitting technology and uses Acrylic and Kevlar yarn, providing both softness and combined cold and cut resistance
