

## SHOWA CN741

The SHOWA CN741 features a high level of chemical resistance. At 380mm in length, the glove is designed with a grip wave pattern to ensure a secure grip during use, even in challenging conditions. The interior of the glove incorporates innovative technology. The flocking particles help to distribute moisture, making it easier to put on and take off the gloves even after extended wear. The SHOWA CN741 also features Eco Best Technology, making it a biodegradable glove.
