ChemRest[®] Series EBT by SHOWA[®]: The environmental impact is the only difference

SHOWA[®] gloves with Eco Best Technology[®] (EBT) are engineered for accelerated biodegradation in biologically active landfills. Independent certified laboratories performing long-term landfill biodegradation testing according to ASTM D5526-12 reported that SHOWA's gloves with EBT achieved 82.0% biodegradation in only 386 days, while gloves without EBT achieved only 1.9% biodegradation over the same period of time. These results may not be indicative of future biodegradation.
