PROTECT WHAT MATTERS

Hands provide 70% of man's total motor abilities.

Endowed with exceptional mobility and agility, the hand is a highly developed tool comprising 27 bones, several feet of blood vessels and thousands of nerve endings. Our skin is the first layer of protection and, efficient as it may be, it offers limited resistance to the cold and other dangers such as cuts, abrasions and harsh chemical exposures.

Always Innovating.
Never Imitating.

Beginning with the world's first PVC and Disposable Nitrile gloves, we've always led the pack with better, safer ways for you to work with your hands.

We combine our technological expertise and mastery of design with an intimate understanding of our customers, their work and the protection they need to go above and beyond. This approach enables us to take protection to the next level with advancements like our cut-resistant **Hagane Coil®** and **S-TEX®** range. Our standard is the highest standard of performance and safety, providing you the ultimate defense, no matter what task awaits you.

Quality is woven
into every fiber
of our organization.

We have full control of our industrial ecosystem, enabling us to maintain consistent quality and achieve perfection at every level. We perform every possible resistance test in our labs to ensure that each glove is fit for work before packaging and delivery. All of our production sites around the world are ISO 9001 certified and embrace our relentless pursuit of excellence.

**BETTER-PROTECTED
USERS**

It is a mistake to believe that for a glove to be good, it just needs to meet current standards and prevent whatever risk the user is facing. The reality is much more complicated than it appears.

Whatever the industry, working conditions or application, the glove needs to be as comfortable as possible. Comfort is paramount as, without this essential quality, the worker's safety would be considerably reduced.

Historically, a lot of construction workers would not wear gloves because it limited their dexterity and prevented them from doing their jobs correctly. Despite the risks, they found it more practical to work without protective gloves. Faced with this situation, manufacturers of personal protective equipment, especially SHOWA®, have developed solutions that enable everyone to benefit from increased comfort and exemplary protection.

By developing ergonomic glove ranges that perfectly follow the shape of the hand and as the first company to develop seamless, coated gloves and certain high-performance fibers, SHOWA® is a forerunner in numerous technological advancements. Providing a high level of protection against mechanical and chemical risks, SHOWA® gloves always offer more comfort, flexibility and accuracy than any other brand.

[100%] Integrated
Manufacturer
Since 1951

By owning all of our manufacturing, design and inspection processes, we create our own machinery, yarns, coatings, polymers and hand formers. This unchallenged level of control fuels our innovation process, resulting in unreplicable products and technology that give us a significant advantage over our competition.

WE ARE SHOWA®

SHOWA® is a fully integrated manufacturer. We fully control our industrial ecosystem by creating our own machinery, yarns, coatings, polymers, designs, and hand formers. We control every step of our process, every step of the way - for 100% quality control at every level. SHOWA® makes protective gloves for all industries and applications requiring high quality hand protection.

Our hand protection solutions are grouped into five major product families or clusters:

- 
CHEMICAL & LIQUIDS
- 
GENERAL PURPOSE
- 
INSULATED
- 
SINGLE USE
-

-  **Strategy & Operations**
-  **Production & Manufacturing**
-  **Research & Development**

PROTECTIVE GLOVES FOR COMMERCIAL FISHING

Our mission is to design and produce only the best gloves for every customer. While you may not think that fishing gloves are a necessary piece of equipment for your weekend fishing trips, gloves are becoming increasingly popular for commercial fishing. Not only do they help those handling the fish, but they've been shown to help protect critters they are handling as well.

WHY DO COMMERCIAL FISHING WORKERS NEED PROTECTIVE GLOVES?

Protect your hands from the unknown with fishing gloves from SHOWA® Glove Manufacturer.

That will depend on what your intentions are. However, in most cases, fishing gloves are an essential part of commercial fishing because they help to protect fishermen's hands and assists in better handling of fish and other aquatic animals. These environments are some of the toughest on the planet. Commercial fishing involves catching and storing fish that are frequently sold for food. Quality fishing gloves not only allow you to handle slippery fish that escape netting or cages, but they also protect your hands from the water and other fishing apparatus on the boat. For instance, if you're responsible for pulling in nets, you'll need to protect yourself from the wet ropes or nylon that could cause lacerations in your hands if they suddenly slip.

COMMERCIAL FISHING GLOVES FROM SHOWA®

When choosing the right fishing gloves for your staff, you want to make sure you choose one that is not only slip and cut-resistant but also keeps your hands warm and dry while working in uncertain waters. SHOWA® fishing gloves come in a vast array of options, ensuring that you and your team can select the perfect set of gloves to help you get the job done safely. From neoprene-lined gloves to vinyl, waterproof gloves - you're sure to find the perfect solution with SHOWA® glove manufacturer.

SHOWA® ATLAS® SHOWA®
460/465

Full PVC coating, extra coating on entire hand over cotton.

A flexible, soft glove that absorbs perspiration, for ultra-comfortable extended wear and with good mechanical resistance.

APPLICATIONS:
Maritime sector
Petrochemical
Transport
Fishing
Logistics

| REF. | SIZE | LENGTH |

BREATHEX FOAM

FOR THE ULTIMATE OUTDOOR
COMPANION

SHOWA®
406

Full foam Natural Rubber Latex coating doubled with Natural Rubber Latex on palm coating over nylon outer liner with insulated acrylic/nylon inner liner

Designed to protect at temperature down to -30°C, for short or intermittent contact

Water-repellent surface combined with thermal insulating liner keep hands warm and dry enhancing productivity and allowing for longer work periods

APPLICATIONS:

| | |
|------------------------|-----------------|
| Winter general purpose | Assembly |
| Construction | Agriculture |
| Logistic & warehousing | Lawn and garden |
| | DIY |
| | Refrigeration |

FEATURES

LINER: Seamless knit nylon/insulated acrylic, nylon

COATING: Natural Rubber Latex

GRIP: Rough

PACKAGING: 6 pair per polybag. 6 dozen per case.

| REF. | SIZE |
|------|--------|
| 406 | 7/M |
| 406 | 8/L |
| 406 | 9/XL |
| 406 | 10/XXL |

Cat. II EN 388:2016 EN 511:2006

SHOWA® designed the ultimate outdoor companion SHOWA® 306 using BREATHEX FOAM TECHNOLOGY™ - a revolutionary dual latex coating technology that allows the glove to be both BREATHABLE and LIQUID RESISTANT. The combination of full foam latex doubled with latex coating on the palm is the only alternative solution for workers to be protected with one glove. SHOWA® 306 provides premium grip and dexterity with breathability in dry or wet environments, whatever the outdoor conditions are.

Full foam Natural Rubber Latex coating doubled with Natural Rubber Latex on palm over nylon/polyester liner

306

SHOWA®
306

BENEFITS: One solution for all purposes, whatever the outdoor conditions are

- 1 Aerated latex foam for breathability and reduced perspiration
- 2 Impermeability protects from liquid penetration
- 3 Latex coating offer high level of grip and abrasion resistance
- 4 Soft comfort and premium fit thanks to SHOWA® ergonomic design
- 5 High level of flexibility through engineered coating
- 6 Ergonomic design that replicates the natural curvature of the human hand, reducing hand fatigue

APPLICATIONS:

Construction
Agriculture
Logistics
Exterior works
Warehousing

| REF. | SIZE |

| 306 | 6/S |
| 306 | 7/M |
| 306 | 8/L |
| 306 | 9/XL |
| 306 | 10/XXL |

FEATURES

LINER: 13 gauge seamless knit nylon/polyester

COATING: Foam Natural Rubber Latex

GRIP: Rough

PACKAGING: Individually packaged. 12 pair per polybag. 12 dozen per case.

SHOWA®
234X

Strong cut resistance performance - ANSI Cut Level A4
Cooling and breathable HPPE properties reduce perspiration and keep hands dry
Designed for use in "knife hand" applications in food processing & food service industries

APPLICATIONS:
Automotive
Construction
Food
Glass
Mechanical

| REF. | SIZE |
|------|--------|
| 234X | 6/S |
| 234X | 7/M |
| 234X | 8/L |
| 234X | 9/XL |
| 234X | 10/XXL |

SHOWA® ATLAS®
300

A flexible and robust glove with good resistance to tearing
Natural rubber latex coating protects the hand in damp environments and against detergents or alcohols

APPLICATIONS:
Public sector
Automotive
Mechanical

| REF. | SIZE |
|------|--------|
| 300 | 7/S |
| 300 | 8/M |

SHOWA®
380

Ultra-light weight low-lint glove, resistant to deformation
Microporous foam nitrile protects the hand from oil, hydrocarbons and grease penetration
Low-soil color
Thin nitrile coating provides flexibility and tactility while offering premium abrasion resistance

APPLICATIONS:
Construction
Mechanical
Maritime sector
Automotive
Internal fixing

| REF. | SIZE |
|------|-------|
| 380 | 6/S |
| 380 | 7/M |
| 380 | 8/L |
| 380 | 9 /XL |

SHOWA® ATLAS®
600

Full PVC, Ultra-light weight, elastic low-lint glove
Protects the hand from oils, hydrocarbons and grease penetration
Embossed palm finish pushes oils away to increase grip

APPLICATIONS:
Agriculture
Viticulture
Garden work
Waste collector

| REF. | SIZE |
|------|--------|
| 600 | 7/S |
| 600 | 8/M |
| 600 | 9/L |
| 600 | 10/XXL |

SHOWA®
377

Fully dipped nitrile
Superior foam over-dip ensures excellent grip even in oily applications
Liquid resistant to end of coated area
Warmth, protection and comfort

APPLICATIONS:
Construction
Painting - Decorating
Ship maintenance
Automotive
Oil platforms
Cementing

| REF. | SIZE |

PROTECTION AND PRESERVATION IN ONE

Sustainability isn't just a commitment - it's part of SHOWA's legacy. Our revolutionary Eco Best Technology® offers the solution that makes a difference to the environment, without any compromise on protection and performance.

HOW DOES EBT™ WORK?

SAME GLOVE, BETTER FOR THE PLANET.

SHOWA's revolutionary Eco Best Technology® makes a difference to the environment, without any compromise in protection and performance. Launched in 2012, our

biodegradable nitrile gloves are the industry's first, and today, SHOWA® offers the most extensive selection of biodegradable hand protection in the market.

SHOWA® LAUNCHED ITS TECHNOLOGY IN 2012 - A DECADE OF SUSTAINABILITY

SHOWA® 707D/FL

FOOD-SAFE
ECO-BEST TECHNOLOGY®
NITRILE GLOVES

SHOWA® 707D/FL TAKES YOU
WHERE SAFETY AND COMFORT MEET

At SHOWA® we strive to protect what's important, which is why we've introduced the SHOWA® 707D/FL: a lightweight and strong nitrile glove specifically designed to combat the risks within the food sector, keeping products safe from contamination and hands safe from harm.

The special organic formulation makes SHOWA® 707D/FL safe for contact with all food categories in short term repeated contact situations. The glove is liquid proof and ideal for use with fatty and oily foods. It conforms to the shape of the hand, creating a comfortable second-skin feeling for extended use during precise manual operations. Due to its increased thickness and nitrile properties, the 707D/FL provides exceptional resistance to tears and chemicals. The winning combination of exceptional grip, durability and mild material properties makes manual tasks within the food industry using SHOWA® 707D/FL comfortable and much safer for both the wearer as well as the product that is being handled.

| REF. | SIZE | LENGTH | REF. | SIZE | LENGTH |

PACKAGING: 12 pairs per polybag.
12 dozen per case.

WHY IS BLUE IMPORTANT?

According to Hazard Analysis and Critical Control Points practices, PPE gloves in food handling should be blue because the color is not found in food. This means that any broken piece can be identified immediately, thus eliminating risk of contamination.

PROTECTION. PERFORMANCE. PLANET.

The world's first sustainable general-purpose glove preserves the planet without compromising on performance or protection. Featuring our revolutionary Eco Best Technology®, the SHOWA® 383 takes 1-5 years to biodegrade in an active landfill, compared to more than 100 years for other, non-sustainable options.

The 383 is your earth-friendly choice in protection and preservation.

NITRILE

EBT™

SHOWA®
383

Microporous biodegradable nitrile engineered with 13-gauge seamless knit liner

BENEFITS

- Wet & Oil grip
- Eco Best Technology®
- Natural rubber latex free
- Superior tactile sensitivity
- Abrasion-resistant

FEATURES

Liner: **13-gauge seamless knit biodegradable polyester**
Coating: **Microporous nitrile**
Grip: **Embossed grip**

APPLICATIONS

- Boat repairs
- Intricate parts handling
- Light assembly
- Warehousing & distribution
- Oily metals

| REF | SIZE |
|-----|--------|
| 383 | 6/S |
| 383 | 7/M |
| 383 | 8/L |
| 383 | 9/XL |
| 383 | 10/XXL |

PACKAGING: 12 pairs per polybag.
12 dozen per case.

4121X

GLOVE SIZE CHART

It is crucial to get the glove size right for maximum dexterity.

Here are a few recommendations to help you in finding the right size of gloves you need.

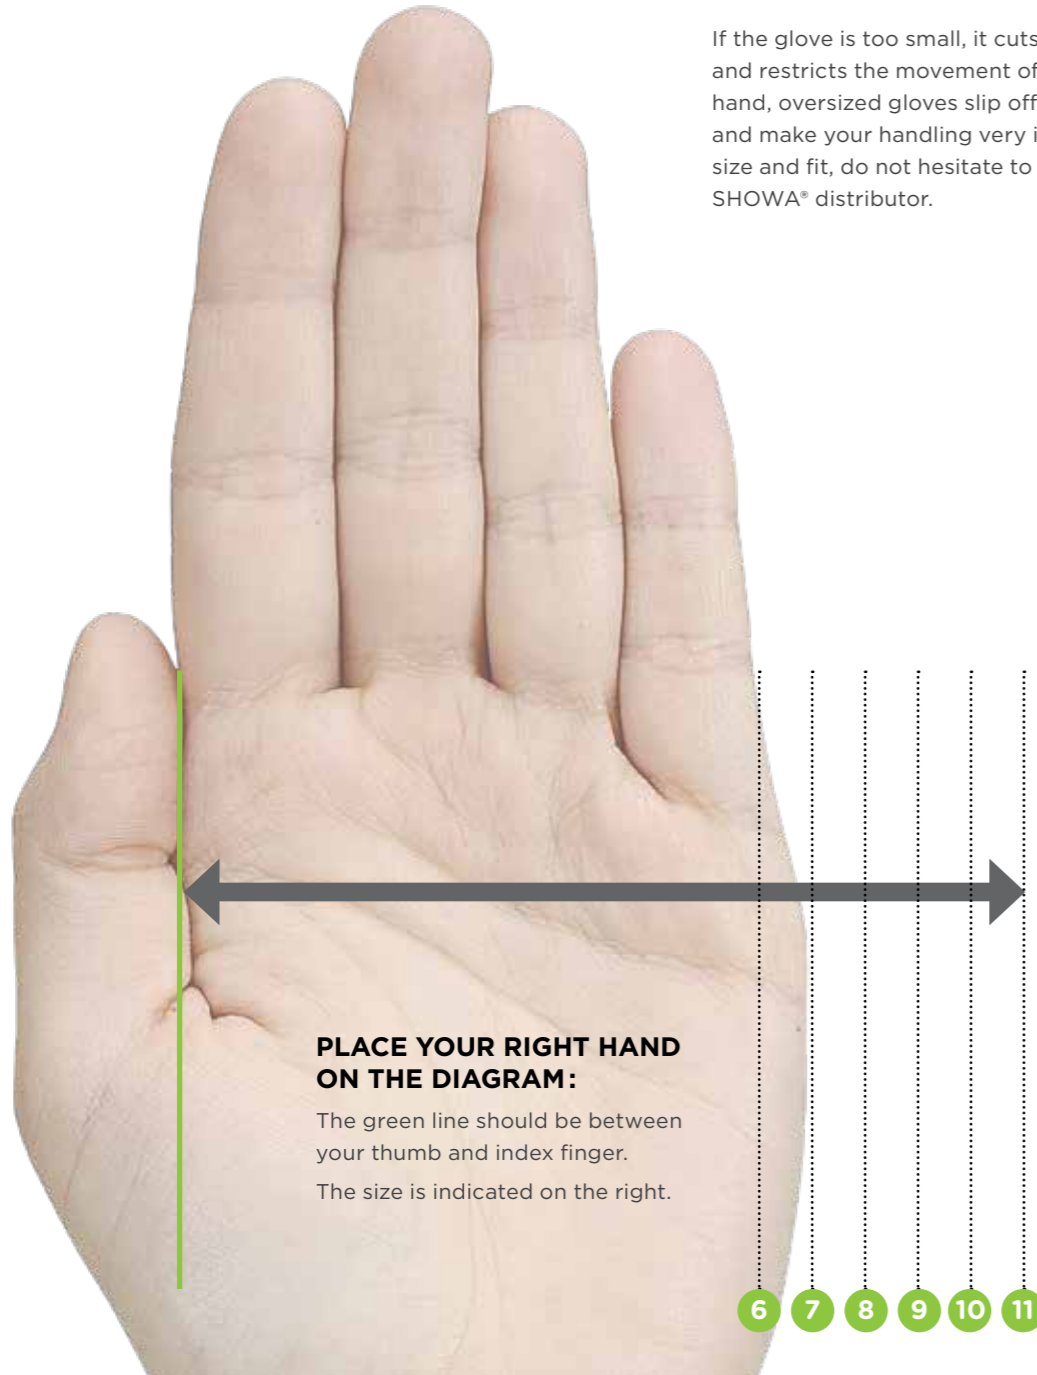

| Glove size further to EN 420 | Hand (mm) | | Glove (mm) |
|------------------------------|--------------------|--------|----------------|
| | Palm circumference | Length | Minimum length |
| 6 | 152 | 160 | 220 |
| 7 | 178 | 171 | 230 |
| 8 | 203 | 182 | 240 |
| 9 | 229 | 192 | 250 |
| 10 | 254 | 204 | 260 |
| 11 | 279 | 215 | 270 |

COLOR-CODED CUFF

Some styles of SHOWA® gloves have a colour-coded cuff. These cuffs enable the size recognition in the factory and the pairing after washing the gloves.

TESTING PRIOR TO USING

If the glove is too small, it cuts off the blood circulation and restricts the movement of the hand. On the other hand, oversized gloves slip off at the slightest movement and make your handling very imprecise. To be sure of your size and fit, do not hesitate to ask for samples from your SHOWA® distributor.

PLACE YOUR RIGHT HAND ON THE DIAGRAM:

The green line should be between your thumb and index finger.

The size is indicated on the right.

THE SENTINEL ADVANTAGE:

- ✘ Improves Cost Control
- ✘ Reduces Work-Related Injuries
- ✘ Consolidates Inventory
- ✘ Eliminates Waste
- ✘ Enhances Productivity
- ✘ Ensures Compliance with OSHA 29CFR 1910.132

When it comes to safety, you get what you pay for. And when it comes to cutting costs, high-performance hand protection is always a safe investment.

SHOWA's Sentinel program provides customized safety solutions that help prevent work-related injuries and optimize your operation's cost performance. Proven to **reduce costs by up to 33 percent**, we'll give you a competitive edge by helping you get the most from your hand protection.

SENTINEL'S **5-Phase Methodology** is a holistic approach to optimizing your operation's safety and cost-performance. Beginning with a comprehensive hazard assessment, we identify risks in your workplace and establish a benchmark to measure the impact of Sentinel's effectiveness over time.

HERE'S HOW IT WORKS:

1

EVALUATION: SHOWA's highly-trained field experts conduct a comprehensive on-site hazard assessment to identify inefficiencies and turn them into opportunities.

2

BENCHMARK: After determining business goals and objectives, we use your current performance metrics as a baseline to help measure Sentinel's impact over time.

3

IMPLEMENTATION: A customized safety plan is designed and implemented to improve your operation's cost- performance by reducing risk, injuries and subsequent expenses.

4

MEASUREMENT: Sentinel's effectiveness is quantified by comparing new performance data to your baseline, followed by the establishment of your next milestone.

5

MANAGEMENT: Upon successful integration of your customized safety plan, our service experts provide ongoing assistance to ensure you get the most from your investment long-term.

- Additional Benefits:**
- Comprehensive Assessments
 - Customized Safety Plans
 - On-Site Training
 - First-Class Customer Service

SHCWA[®]
Always Innovating. Never Imitating.

The logo features the word "SHCWA" in a white, blocky, sans-serif font. The letter "C" is replaced by a stylized green graphic consisting of three vertical bars of varying heights. Below the logo is the tagline "Always Innovating. Never Imitating." in a smaller, green, sans-serif font. The background is a dark grey gradient with a subtle hexagonal pattern.
